Black Diamond 200 Pad Product Specifications

3.0 Use

For heavy duty cleaning of worn natural stone and concrete floors. Black Diamond 200 effectively removes scratches and stains from the surface and leaves a clean, matte surface prepared for the subsequent Black Diamond steps.

4.0 Construction

The Black Diamond 200 Grit Pad is made of 100% recycled polyester and natural fibers impregnated with billions of microscopic diamonds.

5.0 Labeling

Labeling is to clearly identify product, size, and quantity.

6.0 Environmental Initiatives

- Polyester fiber used in our pads comes from 100% post-consumer and industrial recycled waste product.
- Shipping cartons contain at least 45% recycled material.
- Plant is operating under EPA approved Clean Air Permit.

7.0 Directions for Use

Use wet on floor machines up to 350 RPM. Remove debris on the floor's surface by dry mopping. Dry mopping reduces the wear on your Black Diamond pad, as well as on the floor and cleaning tools. Always mount the Black Diamond pad on the floor pad driver with printed side toward the machine and the colored side facing the floor.

8.0 Product Care

For continued good results, it is important to clean your pads thoroughly by rinsing them off with water. This removes dirt that can wear on the floor and reduce the life of the Black Diamond pad.

9.0 Sizes

Disc Size (Diameter) (O.D. ± 0.06 inch)	Center Hole
5 inch	No center hole
8 inch	No center hole
10 inch	3.25 inch
