

9000CD

INDUSTRIAL STEAM CLEANER

The 9000CD provides continuous steam for an unlimited amount of time when it's hooked up to a direct water line or with the available 2 gallon water container. There's no more down time waiting for the boiler to re-pressurize. The 9000CD is the perfect choice for environments that require large volumes of uninterrupted steam.

Steam deodorizes and sanitizes with heat and moisture and since the only ingredient required for the 9000CD is water, cleaning has never been safer, healthier or more environmentally friendly.
